

## New Richmond in Colour

# New Richmond in Colour

## A modern collection from the market leading Ambla range

Produced and stocked in the UK, the New Richmond in Colour collection is available directly from Wardle Storeys in full rolls or from our extensive UK and worldwide distributor network in cut lengths and full rolls.

The collection features 24 popular colours with a range of 9 Juno co-ordinates and is used extensively in healthcare, office, education, leisure, hospitality, stadia and airport environments.

Nominal Width: 1370mm

Nominal Roll Length: 30 metres

### AMBLA PROTECTS

Ambla contains active ingredients which protect against the growth and spread of mould and mildew. This is not a surface treatment and therefore Ambla retains its effectiveness after regular cleaning. Ambla is ideal for environments where hygiene and cleanliness are important.

Ambla is manufactured in the UK to the highest quality standards. Ambla is the perfect choice for healthcare, hospitality, education, marine and leisure contract upholstery projects. Bespoke materials on application.

### TECHNICAL INFORMATION

#### QUALITY

Tested in accordance with ISO7617-1: 2001.

Martindale abrasion in excess of 300,000 rubs.

Tested in accordance with BS EN ISO 12947 1, 2, 3, 4.

### FLAME RETARDANCY

#### Ambla is flame retardant.

BS5852 : Section 4 (amended) : 2006 Ignition Sources 0 and 1 when tested in combination with polyurethane foam.

BS5852 : Clause 11 (composites) : 2006 : Ignition Source 5 (crib 5) when tested in combination with CMHR foam.

IMO Res A 652 (16)

EASA.CS25.853(a) App F, Part 1 (A) (i and ii)

### CLEANING & MAINTENANCE

Ambla is resistant to most mild acids, alkalis, drinks and household stains. Clean with a damp soapy cloth and rinse well with clean water. Do not use solvents, bleaches, abrasives, synthetic detergents, wax polishes or aerosol sprays (chlorine-releasing agents at levels of 1-10000 parts per million should pose no problems as long as the material does not endure long soakings at the higher concentrations). Disinfectants may be used in dilution as specified by their manufacturers. These include Haz-Tabs and other disinfectants commonly used in hospital infection control programmes. Rinse well with clean water. Ambla surfaces are NaDCC compatible.

Quality systems approved to ISO TS 16949, ISO14001  
Ambla is a registered Trademark of Wardle Storeys (Earby) Ltd.
